

FINDING THE ATTITUDES AND SOCIAL COGNITION LAB

- McCarty C is not labeled on most campus maps. It is West of McCarty B and South of McCarty A. It is attached to McCarty A via a bridge.
- McCarty C is marked with a purple asterisk on the map below.
- The purple arrow on the map below shows where to enter McCarty C. You can either go up the outdoor staircase or go into the door below the outdoor stairs and take the elevator; the entrance has a wheelchair accessibility symbol next to the door. It looks a little sketchy and like you might be in the wrong place, but it's the easiest way into McCarty C.
- Take the elevator (or stairs) to the 5th floor, go through the inner door into the office area and take a left to find the ASC Lab.
 - Dr. Kate Ratliff is in McCarty C 524.
 - Ileri Akinola, Cindy Jin, and Nicole Lofaro are in McCarty C 531
 - Research participants should go to McCarty C 532
- **Note About Accessibility:** The 5th floor of McCarty is accessible for people who use a wheelchair or other mobility aids; however, our offices are not accessible due to three steps up. Please do not hesitate to let us know if this is an issue and we will arrange for an alternative meeting spot that does not require going up the stairs.

The McCarty C entrance from the outside:
